- AP world Geography

PROJECTS

CSS Calender

One of my first and most up to date projects was that I made a dropdown calender using CSS that depicts a calender for a flight departure. I used a custom font style sheet from a 3rd party source that in order to get my exact prereferences that was not made by me.

Very basic HTML -

https://drive.google.com/file/d/1My7ZbGcD_SKgpN4WTthVMz-N_TTCM4tk/view?usp=classroom_web&authuser=0

CSS -

https://drive.google.com/file/d/16afE4nnmCzrox_bvl98A7owMcVsboUoX/view?usp=classroom_web&authuser=0

Stylesheet CSS (Used for font, Not made by me) -

https://drive.google.com/file/d/1WegzF1MVdLXRq8II98fuYZIUIadDDk2o/view?usp=classroom_web&authuser=0

Eager and motivated beginner-level computer science learner seeking opportunities to apply theoretical knowledge gained through coursework, classroom and self-study. Committed to continuous learning and growth in software development and related fields.

SKILLS

Hardworking

Good Problem-Solver

Flexible and Adaptable
